

SOIL SAMPLING – Incliner Casing

Q-Series Incliner Casing

Incliner Casing is available from USExploration Equipment Company and comes in two distinct styles – “Standard” (glue and rivet style) and “QC-Series” with precision grooves and flush self-sealing joints. This unique product maintains access to the bore hole for the “probe” while also controlling the orientation of the “probe” and finally conforms to the movement of the surrounding ground. The accuracy of the inclinometer measurements are directly influenced by the quality of the casing grooves - that is why the **QC-Series** offers precision grooves with the convenience of self-sealing joints and snap-together coupling. When ordering inclinometer casing, always consider diameter, groove shape and coupling style...

In addition to QC-Series Incliner Casing is available in different styles including Shear Wire (left), Standard (center) & EPIC (right)

Incliner Casing is available in three standard sizes... 1-15/16-inch (48mm), 2-3/4-inch (70mm), 3-3/4-inch (95.2mm) Outside Diameter

QC-Series Casing Length	Outside Diameter	Inside Diameter	Collapse Rating	Load Rating	Assembly Part Number
5-Foot (1.5m)	2-3/4-inch (70mm)	2-1/3-inch (59mm)	240 psi (16.5 Bar)	1,400-Pounds (635 kg)	51150210
10-Foot (3m)	2-3/4-inch (70mm)	2-1/3-inch (59mm)	240 psi (16.5 Bar)	1,400-Pounds (635 kg)	51150211

QC-Series Incliner Casing Outside Diameter	Bottom Cap Or Top Cap	Assembly Part Number
2-3/4-inch (70mm)	Bottom Cap	51150230
2-3/4-inch (70mm)	Top Cap	51101500
